Location: Ramat Gan, Israel | Availability: Immediate

Professional Summary

Tech-savvy ERP and automation expert pivoting into AI-powered business solutions, with over 13 years of experience in Priority ERP implementation, integrations, and process automation. Skilled in AI, IoT, and data analytics, leveraging recent training in Python, Power BI, SQL, and AI-driven automation tools (n8n, Zapier). Proven ability to bridge legacy systems with modern AI workflows, optimizing decision-making and operational efficiency.

Core Competencies

- ERP & Business Systems: Priority ERP (SDK, integrations, full implementations), D365 data migration
- AI & Automation: AI workflow design, prompt engineering, GPT API integration, n8n, Zapier
- Data & Analytics: Python, SQL, Power BI, basic ML concepts, data engineering fundamentals
- IoT & Smart Systems: SmartThings, Apple HomeKit, Home Assistant, automation scripting (Webcore)
- Tech Foundations: Web Services, UML, virtualization, basic ethical hacking principles
- Languages: Hebrew (Native), Russian (Native), English (Fluent)

Recent AI & Data Training

- The Complete Agentic AI Engineering Course – Agents, autonomous workflows, API integration, multi-agent orchestration
- AI For Everyone – Andrew Ng (Coursera)
- ChatGPT Prompt Engineering for Developers (Udemy)
- Introduction to IoT (Cisco Networking Academy)
- Microsoft Power BI – A Complete Introduction (Udemy)
- SQL for Data Science (Coursera)
- n8n Crash Course + Practical Projects
- Zapier Fundamentals
- In Progress: Modern Data Engineering with GCP (Coursera)

Professional Experience

ERP Specialist – Azelis Group / Lidorr Elements

Jun 2021 – Jul 2025

- Managed Priority ERP operations and integrated with external systems.
- Led migration from Priority to D365, including full dataset transfer (customers, vendors, balances, etc.).
- Built advanced interfaces, automated workflows, and integrated BI dashboards.
- Added AI-driven elements for decision support and process optimization.

Senior ERP Project Manager – Clalit – SHILA Health Service (via Tulip / Yael Software)

Aug 2016 – Jun 2020

- Managed Priority ERP for ~7,500 users in 150 branches.
- Implemented automation, supplier portal, and digital signature workflows.
- Led complex financial and logistics projects across the organization.

Private Project – AI-Enhanced Smart Home System

2019 – Present

- Designed an end-to-end smart home ecosystem integrating AI automation, security, and IoT devices.
- Developed multi-platform automation scripts using Webcore and API integrations.

Priority Developer – EMET Computing

2014 – 2016

- Developed ERP screens, reports, and interfaces; integrated AGILE PLM.

Priority Developer – Blades Technology (BTL)

2012 – 2014

- Delivered ERP solutions for 1,300+ users; managed data loading and UML-based system analysis.

Priority Developer – Medatech Information Technologies

2011

- Developed manufacturing, procurement, and inventory modules in Priority ERP.

Development Project – EUN, Brussels, Belgium

2010

- Designed database schemas and developed a sampling algorithm (SQM).

Education

B.Sc. Information Systems Engineering – ORT Braude College, Karmiel, Israel (2005–2010)
